

PipeWolf Media

Live Streaming Videography Package

This professional live streaming package is perfect for events, conferences, workshops and training sessions.

Invite people from all over the world to join your event in real time.

Viewers can watch your live event from either your own website, social media or a customized event page.

You can also live stream to multiple websites or social media platforms to increase your audience.

The options for what you can do with live streaming are endless. From events to employees in a distributed team, video streaming can be an inexpensive option to get your message out without costing you travel time and money.

We will work with you throughout the process to ensure your live stream is simple and stress-free.

We pride ourselves on offering an affordable and professional live stream service. Our team will use professional equipment to ensure your event is streamed in high definition.

We understand that your event is live and there is only one change to get things right.

When working with a live stream it's paramount that the video is high-quality. We ensure your video won't stop streaming halfway through or glitch and freeze.

We can stream your event, meeting or conference in real time all around the world. Next time you hold an event consider the costs you could save by live streaming the event.

Live Streaming Videography Package Information Snap Shot

Package Includes:

Pre-Filming Meeting – We'll meet up with you for an hour to discuss your event and live streaming requirements.

Streaming Prep – We'll make sure your live streaming links are available so you can embed them onto your website ready for your event.
