Video Production Subscriptions

Subscribe and save 50% off your video content.

Our Video Production Subscriptions are a fantastic and affordable option if you need regular video content.

Each month we will film and produce fresh, new video content for you.

Our packages include a mix of Testimonial Videos and 30 second Social Media Videos – regular testimonial videos can not only showcase your happy clients, they can also highlight your customers explaining some of the aspects of your business they most enjoy such as your products, service, special offers and key features.

Social Media Videos are quick snap shots that are designed to keep your followers up to date with the latest news and special offers.

Social Media Videos can either feature a presenter speaking to the camera or voice over alongside professionally filmed b-roll and cut away footage of your business.

Subscriptions Include:

Pre-Filming Meeting – We'll meet up with you for an hour to discuss your subscription when you first sign up – from there we will be in regular contact to coordinate your filming details each month.

Customised Interview Questions – It's important to ask the right questions to draw out the full story of your customers experience with your business. We'll work with you to tailor our interview questions to your business.

Filming - We'll come to you and film an interview with your client along with some b-roll footage of the things they love about your business. At the same time, we'll film your Social Media Video footage.

Licensed Music – We'll pick a licensed music track to add that extra something-something to your video. Licensed music not only means that the artist is getting paid, it also means that your video can be shared on social media without any copyright infringements.

1 Revision – Before we finish your videos and they're launched into the big wide world we'll send a final draft edit to you for a revision.

Edited Ready For Upload – We'll edit your testimonial into a 2 min video and your Social Media Videos into 30 second clips, ready to be uploaded to your website and social media.
